

Recall Gavin Newsom Take Back California!

“California Republican Party Insiders Killed Enthusiasm for Newsom Recall”

FIRST NAME LAST NAME

ADDRESS

CITY, STATE ZIP

Dear NAME:

As a State Delegate to the California Republican Party, we assume you would not want to see the headline above become the narrative either before or after the September 14 special election. That is why we are uniting together to write you to you today with an important warning.

If the state party endorses a candidate in the Recall election it will do irreparable harm not only to the Recall, but the viability of the party going into the important 2022 midterm elections.

We urge you, therefore, to vote for NO ENDORSEMENT on the first and every subsequent round of voting in the upcoming August 7 special meeting of the CRP.

The case for NO ENDORSEMENT is pretty obvious. First, because no name-ID Democrat candidate has filed, there is absolutely no need for the CRP to issue an endorsement. The Replacement question on the Recall ballot has now effectively become a Republican Primary.

You should let the voters make this decision knowing that we are assured a Republican will end up winning the most raw votes on the Replacement question.

Second, endorsing one candidate over the others will anger supporters of the other candidates. Even worse, it will open the state party up to allegations that it endorsed a left-wing candidate that will anger our party's activist base that is so crucial to providing the volunteer army to win not only the Recall, but to support target candidates in 2022.

As a State Delegate, you are duty-bound to protect the integrity of the state party in this matter and vote in a manner that brings unity, not disunity, to our rightful effort to save California. We respectfully urge you to act accordingly and **vote for NO ENDORSEMENT.**

Sincerely,

John Cox
